

DWARF CAR RACING SERIES OF TEXAS

BEST SHOW ON DIRT

Dear Business Owner:

DCRST is proud to announce that we will be hosting one of the 2023 Western States Dwarf Car National in Paige, Texas in July 27th – 29th, 2023. This race will be in conjunction with the second of a three race series for Central States dwarf Car Association. As well as our regular Dwarf Car Racing series of Texas season.

In order to make all three successful we are reaching out directly to local businesses, Families, and friends and are offering the opportunity to help by becoming a proud Sponsor!

DCRST, the series was founded by Arden Vikre who wanted to give fellow racers the opportunity to compete in a competitive, cost effective form of auto racing. The cars chosen for the series were dwarf cars. These are custom built 5/8 scale vehicles designed to replicate their 1930's 40's counterparts. The majority of the car is built of steel square tubing, making the chassis very strong and safe.

These cars are powered by 1000cc motorcycle engines. This combination gives these cars power to weight ratio that is unheard of in most racing classes, and gives drivers and fans very exciting racing. DCRST continues to grow with an emphasis on safety. DCRST is and has always been a traveling series with drivers from all over Texas. We currently have over 50 drivers ranging in experience and age. From our entry level Sportsman to our Pro Division with ages ranging from 16 to 70.

DCRST is guided by a volunteer board of directors and volunteers at each of the track we travel to. Our primary revenue resource is registration fees, member contributions, and donations received from generous individual businesses.

Please take a moment to review and select the sponsorship package that best fits your business and budget. Any sponsorship level you select will be greatly appreciated.

Thank you for your consideration,
